Connector

Name ________________________________ Content Strand __________________

Connector: Your job is to find connections between the material your group is reading and the following areas.

Some connections I found between this reading and my personal math education/background.

Some connections I found between this reading and my practicum experience in ___ grade.

Some connections I found between this reading and another curricular area (be sure to tell which area).

Some connections I found between this reading and my teaching philosophy.

Other connections that are worth noting
