Need to Verify Your Attendance?

- You can verify your attendance by logging in to your CougSync and going to your Involvement page.

- By selecting “Common Reading” in the “All Organizations” column, you can filter out only the Common Reading events you have attended. You can print this page out, cut apart each event and paste each into the month page of the Geology 101 Passport to Science. You will hand the booklet in during the last week of lecture.

- If some events you attended are not showing up, you likely did not complete the required post-event survey. You can access the survey(s) by following the link in the orange box at the top of your Involvement page.

- See CommonReading.wsu.edu for complete instructions.
